DRYNIE BATTLESHIP is a dark roan bull that stands on extremely short legs with bone that is of the best quality. We saw this calf last spring at Dr. House's farm and liked him very much. Hal Longley and Paul Teegardin were very enthusiastic in their remarks about him and so we acquired a half interest in him and each of us bred several heifers to him. Paul Teegardin just dropped me a note the other day saying he had seen the first calf by him—a promising dark roan bull calf. In addition to his grand Imported pedigree he has one of the best mothers you will see anywhere—in fact this was one of the big things that made us interested in him. Here is a bull that is sound and fertile and ready to go to work. We have semen frozen on this bull and would like to reserve the right to use the semen that is left. Herd accredited for bangs.

DUNREL KEYMAN—Breeding bulls usually have a background of uniform quality. Here is a bull that has just that. He comes from a family that has consistently produced well for us. This calf is out of one of our good daughters of Pittodrie Upright—her first calf is one of our good young cows that produced the Jr. Yr. bull in our show string this year, her 2nd calf was Dunrel Hilda 4th who was champion female at our State Show at Marion, 2nd at the International and then as a Sr. Yr. was reserve senior champion female at the Eastern National and 4th prize at International. Her next calf is also a young cow in the herd; then came Keyman who has looked like a beef bull since birth. His sire is still active at 8 years of age and we still feel he is one of the great breeding bulls today. If you are looking for a bull to correct color, go into heavy service and give you calves with gaining ability be sure to check this one. Herd accredited for bangs.

HARMONA CRUSADER is one of the very best bulls that we have ever produced. He is smooth, thick, deep, lowset and stands on short legs with a wonderful pleasing kind of a head. His dam is sired by Chappelton Souvenir and he by Westmere Crusader and this combines the best that Scotland can offer. If you are in the market for a really good bull, we suggest that you delay your purchase until you see this bull in the Ohio State Sale, March 18.

ELMDOWN WONDER 19th is a smooth low-set bull that stands on a good set of straight, sturdy legs. He is a beautiful, rich red color. His mother comes from the famous Dorsey Jones Secret family that produced a lot of good show cattle for Mr. Jones. His full sister was the second top heifer in the 1956 State Sale selling to J. Mallory Nash of Virginia. Two of his sisters are being retained in the herd and we can strongly recommend this bull to be a breed improving sire. Look him over sale day and judge for yourself.

FAIRCROFT CLIPPER is sired by Calrossie Troubadour and his dam by Calrossie Sportsman. This is exactly the same bloodlines as P. J. Troubadour, the 1956 International Ohio bred grand champion steer. In fact, this good bull is a three quarter brother to the greatest International grand champion steer of all time. Look this bull over sale day. He is a good one.

ACADIA BONN—Grand champion bull of the 1956 Ohio State Futurity. Acadia Commando, Lot 6, is by the same sire.

ACADIA COMMANDO, rugged dark roan son of imported Ballathie Perfect, whose calves were the sensation of the 1956 Ohio State Shorthorn-Polled Shorthorn Futurity. His dam is a typical daughter of imported Calrossie Sportsman, grandsire of the 1956 International Grand Champion Steer over all breeds. Acadia Commando has the individuality to match his impeccable imported pedigree.

ELMDOWN WONDER 21st—Is a short coupled, lowset, thick bull with a lot of depth and spread. He is a dark mossy roan with plenty of bone, and a good head. He is a grandson of Imported Drynie Wonder, the bull whose record is well known. His dam is a granddaughter of Edellyn Royal Leader. His full sister sold in the Oakwood sale last June for \$800. His blood sister was reserve champion in the 1955 State sale selling to Ray Fruth and another heifer bred the same way was grand champion at the 1956 Ohio Shorthorn sale. This same family produced a lot of famous show cattle for Maxwalton farms. This bull has the backing to make a great sire.

GREENFIELD VIOLET is a well balanced heifer with a lot of depth and thickness. Her mother is one of our very good cows. She sells bred since December 25th to Edellyn Royal News. This thick, dark red bull was third in a strong class of 26 senior calves at the 1955 National show in Des Moines. His dam was the top selling female in a former Acadia sale at \$2900. His sire, a son of the famous Calrossie Good News sired ten head that sold for an average of \$5,760. We can recommend this mating to be the very best.

STROWAN CLIPPER R is from the same family that produced the 1948 State Fair reserve champion female and also the grand champion and top selling bull in the 1950 Ohio State sale at \$1400. We like this family so well that we have never offered one of these females for sale before. We now have several of them in the herd. Visitors to the farm pick the cows from this family to be an outstanding group. She is not highly fitted because we hadn't intended to sell her until we decided to support this sale with three good heifers. She is the right type with a very good head. She will be mated to our new junior herd sire, Ringwell Morning Star, international grand champion sale bull. Vaccinated.

STANDARD GUARANTEE

—of—

American Shorthorn Breeders' Association

1. Proper care must be given by purchaser to protect breeding qualities and health of guaranteed animals.

2. All bulls are guaranteed breeders, provided they are not allowed to serve when under 14 months of age, or allowed to run with the herd when under 20 months of age. In case of failure of a bull to be a breeder, notice shall be given to the seller within six months of date of purchase, or by the time the bull is 20 months of age, if purchased under 14 months of age.

3. With the exception of heifers sold under 14 months of age, all females are guaranteed breeders. Heifers under two years of age shall not be served by a heavy or old bull. Cows or heifers sold as bred, or safe in calf, not proving to be in calf must be reported to the seller within three months after date of sale. Females over 14 months of age sold open, not settling within six months after date of sale, shall be promptly reported to the seller.

4. When an animal fails to comply with the above guarantee the seller has the option of substituting an animal of equal value to the satisfaction of the purchaser, or of having the animal returned for a trial for a period not to exceed six months. The expense of freight in such case is to be paid by the seller. If the animal is then proved to be a breeder beyond doubt it shall be returned to the purchaser at his expense. In case of dispute the return of the full purchase price, without interest, to the buyer will be considered full settlement and satisfaction to all claims. No charge for feed or maintenance shall be made by either buyer or seller. Salvage shall go to the seller. It shall be understood that the same guarantee given for the first animal shall likewise apply to any animal later substituted.

5. All animals catalogued have been tested for T. B. and are clean, and have also passed a test for Brucellosis thirty days prior to the sale, or are accompanied by a Bangs Vaccination Certificate. Announcements will be made covering animals not clear from vaccination.

6. Certificates of registry and transfer will be furnished with each animal sold. A signed pedigree application for unborn calves should be furnished with bred females, showing names and record numbers of sire and dam, as well as service date.

7. Shipment will be made as soon as possible after the close of the sale, but at purchaser's risk of loss or injury after animal is bid off. Where cattle are sold at private treaty the above terms should apply as well as for sale at auction.

All prospective buyers should check health requirements of their states.

As a safeguard to prospective buyers, every animal has successfully passed a clean abortion test within 30 days prior to the sale, or will have Certificates of Bangs Calfhood Vaccination, and those that are not from Accredited herds have passed a clean Tuberculin test within the same period. Health certificates will be provided with each lot sold.
